CELLULOSE AND PAPER WORKERS' PRODUCTION PLEDGE; POLAND'S SOLE CALCIUM CYANAMIDE PRODUCER

LONG-RANGE COMPETITION PROGRAM AT WLOCLAWEK FACTORY -- Sosnowiec Pracownik Chemiczny, May 50

At a production conference held 15 February 1950 by workers of the Wloclawek Cellulose and Paper Factory, production under the Three-Year Plan and the production planned under the Six-Year Plan were discussed and analyzed. To obtain maximum work productivity, the workers pledged to accomplish the following:

- 1. Reduce the amount of waste in paper production from 11 to 8 percent, thereby increasing the 1950 production of paper by approximately 270 tons over 1949.
 - 2. Increase productivity of paper rollers No 4 and 5.
- 3. Increase productivity per man-hour by 5 percent in production of wood pulp; increase work productivity in shaving timber.
- 4. Fulfill the production plan 101 percent each month and increase productivity per man-hour by 4 percent.
- 5. Produce domestically parts for the factory power plant, and increase the amount of power for public consumption from the 1949 average of 940,000 kilowatt-hours to 1,100,000 kilowatt-hours.
 - 6. Fulfill the production plan of alcohol 101 percent each month.
- 7. Supply the "Stella" factory in Wloclawek with 300 kilograms of residual mash every 24 hours for the production of hydroxy-methyl-benzoic acids (CgHgO3).
 - 8. Make available in 1950 50 tons of waste for further processing.
- 9. In the electric workshops, repair electric motors of voltage up to 500 volts for the Wloclawek Cellulose and Paper Factory; by 1954, repair motors of voltage up to 3,000 volts.

50X1-HUM

- 10. Conduct experiments in the laboratory for the purpose of reducing the production cycle in boiling cellulose.
- 11. Prepare coal bunkers for operation in October 1951 instead of December.
- 12. Complete the expansion of the distillery plant 6 months ahead of schedule.

CHORZOW PLANTS LEAD IN CHEMICAL FERTILIZERS -- Sosnowiec Pracownik Chemiczny, May 50

The Chorzow Nitrogen Plants are among the leading chemical fertilizer producers in Poland. They are the sole producers of calcium cyanamide in Poland.
